It’s time to treat yourself with Fast, Affordable & Reliable VPS

**High-speed**
Servers are powered by multi-core Intel Xeon Gold 6132 processors. We pack 384 GB RAM into each node along with dedicated 4 Gbps network connection.

**Affordable prices**
Since running a DC involves such costs as electricity charge, facilities charge, and employee wages, operating our DC in Lithuania allows us to stand out from our competitors.

**Assistance on demand**
Web hosting can be tough, especially at the beginning. We offer assistance in data migration from various control panels, such as cPanel/ WHM and DirectAdmin. Of course, free of charge!

**Reliable optical connections**
Enjoy the unique opportunity to reach almost all Europe in less than 50 ms! Be sure that your mission-critical applications will keep on running, even in the event of an unexpected traffic demand.
Cloud-based infrastructure
Solid 100 Gbps network capacity and enterprise class, branded HP ProLiant hardware.

Resources on demand
Upgrade your VPS on demand. Anytime. No restart or OS re-installation required.

Secure and hassle-free
Keep calm, we handle all network and hardware maintenance, security, and data backups.

Complete hosting solution
Various OS distributions, IP add-ons, and instant cPanel/WHM, DirectAdmin, Flesk licenses.

Resellers welcome
Sell our services at your own pricing structure. No upfront capital is needed.

No long-term contracts
Enjoy flexible monthly contracts and 30-day money-back guarantee.
Linux VPS

### Linux 2
- CPU: 1 x 2.6 GHz
- RAM: 2 GB
- HDD: 20 GB
- Bandwidth: 2 TB
- Port Speed: 100 Mbps*
- Backups: Optional**
- Price Monthly: 3.99 EUR/mo.

### Linux 4
- CPU: 1 x 2.6 GHz
- RAM: 4 GB
- HDD: 40 GB
- Bandwidth: 4 TB
- Port Speed: 100 Mbps*
- Backups: Optional**
- Price Monthly: 5.99 EUR/mo.
- Price Annually: 59.99 EUR/yr.

### Linux 8
- CPU: 2 x 2.6 GHz
- RAM: 8 GB
- HDD: 80 GB
- Bandwidth: 8 TB
- Port Speed: 100 Mbps*
- Backups: Optional**

### Linux 16
- CPU: 4 x 2.6 GHz
- RAM: 16 GB
- HDD: 160 GB
- Bandwidth: 16 TB
- Port Speed: 100 Mbps*
- Backups: Optional**
- Price Monthly: 17.99 EUR/mo.
- Price Annually: 179.99 EUR/yr.

### Linux 24
- CPU: 6 x 2.6 GHz
- RAM: 24 GB
- HDD: 240 GB
- Bandwidth: 24 TB
- Port Speed: 100 Mbps*
- Backups: Optional**
- Price Monthly: 33.99 EUR/mo.

### Linux 32
- CPU: 8 x 2.6 GHz
- RAM: 32 GB
- HDD: 320 GB
- Bandwidth: 32 TB
- Port Speed: 100 Mbps*
- Backups: Optional**

### Linux 48
- CPU: 12 x 2.6 GHz
- RAM: 48 GB
- HDD: 480 GB
- Bandwidth: 48 TB
- Port Speed: 100 Mbps*
- Backups: Optional**
- Price Monthly: 129.99 EUR/mo.
- Price Annually: 1299.99 EUR/yr.

### Linux 64
- CPU: 16 x 2.6 GHz
- RAM: 64 GB
- HDD: 640 GB
- Bandwidth: 64 TB
- Port Speed: 100 Mbps*
- Backups: Optional**
- Price Monthly: 257.99 EUR/mo.
- Price Annually: 2579.99 EUR/yr.

* The port speed can be upgraded to 1 Gbps for €1/mo.
** The daily/weekly backups can be added for €1/mo.

Specifications

Servers

With Time4VPS hosting services you get it all. Top of the line hardware at the price you simply can’t find anywhere else. Branded, high performance HP ProLiant DL360 Gen10 servers are ready for you! That’s our definition of the true value.

Each node is monitored 24/7/365 by our on-board staff. We do our very best to tackle and resolve potential issues before they even become a problem for you.

We are currently provisioning our Linux VPS, Windows VPS, Container VPS and Storage VPS hosting packages on two different type of hardware with following specifications.
Specifications

Servers

VPS nodes:
- Intel(R) Xeon(R) CPU 2 x Gold 6132 @ 2.60 GHz (56 cores)
- 768 GB DDR4-2666 ECC REG RAM modules
- High performance 10 x 960 GB SSD RAID storage
- 4 Gbps dedicated uplink

Container VPS nodes:
- Intel(R) Xeon(R) CPU 2 x E5-2640 v4 @ 2.40 GHz (40 cores)
- 256 GB DDR4-2133 ECC REG RAM modules
- High performance 8 x 960 GB SSD RAID storage
- 4 Gbps dedicated uplink

Storage VPS nodes:
- Intel(R) Xeon(R) CPU E5-2603 v4 @ 1.70 GHz
- 64 GB DDR4-1866 ECC REG RAM modules
- High reliability 12 x 4 TB RAID storage
- 2 Gbps dedicated uplink
Network

We understand that having your network up and running is critical for your business. Time4VPS deploys fast and reliable optical connections to all European network exchange spots to deliver amazing speed and stable connectivity for your workloads. Enjoy the unique opportunity to reach almost all of Europe in less than 50 ms! Be sure that your mission-critical applications will keep on running, even in the event of an unexpected traffic demand.

Time4VPS is able to deliver fully available, extremely fast, and robust connections to the internet, while providing very attractive pricing model to its clients.

Facts about our network:

✓ 24/7 network monitoring
✓ 100 Gbps network capacity
✓ SLA 99.95%
✓ Clean IP addresses
✓ On-board NOC team
✓ Reaches almost all Europe in less than 50 ms
✓ Test: https://ig.time4vps.com/
Data Center

TIER III Data Center infrastructure:

- Location: Lithuania, Vilnius
- Built according to TIER III standard
- 2 independent 2 MW power inlets
- 3 x 664 kW diesel generators
- 4 x 275 kW uninterruptible power supplies
- 6 x 146 kW “freecooling” cooling system
- 2 independent optical communication inputs
- 140 server racks
- Redundant power and internet connection for each rack

FAQ

Q: What is your refund policy?
A: We offer 30-day money back guarantee.

Q: Where is the VPS physically located?
A: Servers are located in Vilnius, Lithuania (EU - Europe).

Q: How long does it take to setup my VPS?
A: Usually, our standard delivery time for VPS is 5 minutes for most customers.

Q: Which operating system can I select?
A: We support various Linux OS distributions at our Standard servers (OpenVZ) and there is a possibility to choose Windows Server 2012 or 2016 with our KVM servers.

Q: What kind of payment methods do you accept?
A: Please feel free to use: PayPal, Visa, Mastercard, Maestro credit cards, Webmoney, CashU, Wire transfer, and Bitcoins.
Testimonials

Kind words from our valuable customers:

Time4VPS is essentially perfect. Set up is extremely fast, and it's exactly what we need at a perfect price. Add to all this the fact that they take Bitcoins, and really, I could not recommend them more strongly. A wonderful service which provides just the right amount of interaction. Many companies get this wrong, asking for too much information, and making you sign all sorts of useless paperwork. This service provides what you need to get on with your work. Time4VPS gets not only my money, but also my respect and admiration. We need more companies like Time4VPS!

A. Fernandez

Low prices, but NOT Low Quality Services. Fast and Friendly support. Speedy servers. As PHP Developer, I was always looking to find a hosting company offering such quality services to eliminate the waste of my time trying to fix server issues. That's what I found here. Highly recommended, especially to web professional.

Christos

About us

Time4VPS is a division of the company ‘Interneto vizija’ which was founded in 2003 and quickly grew to serve more than 100,000 clients across Europe. Due to our loyal customers and their referrals, by 2005 we had become the largest web hosting provider in Lithuania (Europe). Today we are proud to have more than 15 years’ experience in hosting business. We own a huge thanks to our community for trusting us.

By combining affordable, scalable options with enterprise-level technology, we are able to supply our customers with internet address registration, web hosting and VPS services.

Take a look at the milestone HERE.
